

Air quality is one of the biggest issues London faces, and hotels are the third biggest polluters after cars and buildings. To address the problem the [PaddingtonNow BID](#) and [Considerate Hoteliers](#) have joined forces to deliver a new innovative project for hotels within the district, to improve air quality and achieve cost savings. Please see below the project details and if interested please complete the application below.

Air Quality Project

Cost: Free

Duration: 12 months; From December 2018 to November 2019

Type: [Con-Serve™](#) use & participation in 1 workshop
